August 2018

To our partners in mission,

We send special greetings to you who are part of our Missionary Partnership Network as we begin our last term of service as Global Servants with International Ministries. Our ministry in Latin America started in 1984 and so many of you have partnered with us for these 34+ years. We couldn't be more grateful.

Patti is continuing her ministry in Tijuana at the Baptist Grade School known as '*Centro Pedagógico Didaqué*'. The school year has started and again she will have more than 30 special needs children under her care. She also volunteers on the US side of the border with 'Arms Wide Open' a theater and dance group for special needs adults that keeps our son Daniel very busy and happy.

Tim will continue teaching some classes in Baja California, México but will add additional responsibilities in two other areas: 1) the Dominican Republic with International Ministries partners there; and 2) administrative and teaching responsibilities in the on-line Spanish language Masters in Theological Studies offered by Palmer Seminary of Eastern University.

The Longs

In grateful appreciation of your prayer and financial gifts as we continue our ministry in Baja California, México and beyond.
